

BC Society of Engineering and Geoscience (Advocacy Body) April 2024 Update

2024 continues to be a busy year for us!

Our Board Members have had a chance to engage engineers and geoscientists at a number of events over the past month throughout BC. It has been a pleasure to have these face-to-face conversations and better get to know our future members.

Incorporation activities are continuing with the majority of our documentation completed including constitution, bylaws, and membership types. We plan to finalize the incorporation this month.

The Programs working group has been continuing to work hard defining the various programs including their structure, timelines and implementation. Our strategic vision will include the roll out of these programs and services in the later part of this year.

As mentioned, we will be sharing an engagement survey with our mailing list. Your perspective will be invaluable as we strive to shape our society to meet the needs of our future members. Keep an eye out for it shortly!

If you have not already, stay informed by signing up for our mailing list by clicking [here](#). Please continue to check out our website <https://www.bcseg.ca/>, or the [EGBC.ca advocacy body](#) webpage for updates.
